What have you enjoyed most about this activity? What did you like best?

What I enjoyed most about the activity is that you can reuse any used product to make useful and decorative. What I like best is when we use plastic to make tree and flower vase.

What new ideas or information have you learned from this activity?

I learned that we ~~were~~ should not dispose all waste product.

What have you enjoyed least or encountered difficulty with?

The part that they told us to make flower vase

What would you like to change if you did this activity again?

Nothing much.

Thank you for your time and comments.

What have you enjoyed most about this activity? What did you like best?

I enjoyed the crafting of the Christmas tree and the flower vases. I also enjoyed the rally that went on today.

What new ideas or information have you learned from this activity?

I learned that a trash cannot be wasted but instead can be converted to treasure. It is not always useless but can help more.

What have you enjoyed least or encountered difficulty with?

I had difficulty when creating the flower vase. The steps were very confusing.

What would you like to change if you did this activity again?

I would like to encourage more activities in schools and institutions. I would also encourage program to educate more people about recycling.

Thank you for your time and comments.

What have you enjoyed most about this activity? What did you like best?

I enjoyed the Sensitization Programme and the rally which helped in informing the members of the Society on how to recycle Plastic Products.

What new ideas or information have you learned from this activity?

I learnt how to transform a plastic bottle into a flower vase and transforming it into a Christmas tree.

What have you enjoyed least or encountered difficulty with?

The group work was so tedious due to the speed at which other members work.

What would you like to change if you did this activity again?

The group members should be paired based on the level of assimilation and the speed at which they work.

Thank you for your time and comments.

What have you enjoyed most about this activity? What did you like best?

I enjoyed the community awareness program that was organised by the school. Also the recycling project which was reforming bottles into flower vases and trees.

What new ideas or information have you learned from this activity?

I was able to learn that through recycling, we can make the world a better place. Also the recycling.

What have you enjoyed least or encountered difficulty with?

What I enjoyed least was the group activity whereby classes come together to work and not all the students were able to participate in one way or the other.

What would you like to change if you did this activity again?

I would like to have the ability to create an awareness program that will change the mentality about the proper disposal of wastes.

Thank you for your time and comments.

What have you enjoyed most about this activity? What did you like best?

I enjoyed the outreach activity to neighbouring individuals and sharing what we have learnt about recycling.

What new ideas or information have you learned from this activity?

I learnt that I can convert different trashes considered useless to meaningful products. I also learnt about the idea of upcycling which entails the rearrangement of waste products like bottles.

What have you enjoyed least or encountered difficulty with?

I encountered difficulty during the ~~trash~~ program of turning plastic bottles to other products because the plastics were difficult to work with ~~and manage~~.

What would you like to change if you did this activity again?

I would like to change the type of plastic bottles used during the craft activity to a softer one and easy to work with.

Thank you for your time and comments.

What have you enjoyed most about this activity? What did you like best?

I enjoyed the process of recycling 'useless' materials into useful materials which has helped to reduce the risk of environmental pollution.

What new ideas or information have you learned from this activity?

~~I learnt about recycling, up-cycling.~~  
I learnt about recycling and up-cycling as well as the importance to the environment and society.

What have you enjoyed least or encountered difficulty with?

I did not encounter difficulties during the activity (Trash to Treasure).

What would you like to change if you did this activity again?

I would like to change the fact that only one material (plastics) were used for the recycling processes.

Thank you for your time and comments.

| Title of activity: | TRASH TO TREASURE       | Date:       | 11/06/24      |

What have you enjoyed most about this activity? What did you like best?

I enjoyed learning about recycling and reducing waste. What I particularly enjoyed was making flower vases and trees from old plastic bottles. I also enjoyed going out of my school to sensitize people on importance of recycling and also participating in community service (cleaning the community).

What new ideas or information have you learned from this activity?

I learned how to think creatively and discover new uses for old materials. I also learned working collaboratively with my peers to create aesthetic and useful objects.

What have you enjoyed least or encountered difficulty with?

It was difficult working with certain materials that were tricky to manipulate. It was also difficult agreeing with my peers on a particular approach to recycling the bottles because we all had different views on how to recycle the objects.

What would you like to change if you did this activity again?

I would like to have more time on each activity, especially the artworks and crafts.

Thank you for your time and comments.

What have you enjoyed most about this activity? What did you like best?

I enjoyed making new products from old or used one. It makes me feel like I was contributing ~~for~~ <sup>to</sup> the greater good of the society. I also loved the use of special equipments to make products. It was like a 5-minute craft.

What new ideas or information have you learned from this activity?

I learnt about recycling, upcycling and cleaning the environment. Now, I know I can take used bottles from my kitchen and make a stool from it through the process of upcycling and I can turn a regular plastic can to something I can ~~display~~ <sup>display</sup> in my sitting room.

What have you enjoyed least or encountered difficulty with?

I encountered difficulty with the making of some of those products but after rewatching the video and with the guidance from my tutor I was able to do excellently well and make beautiful products with the materials.

What would you like to change if you did this activity again?

I would like to use my artistic skills and my creative skills to design the products. ~~more~~ and I would like to add more products that can be formed from used things like pen holder, cases, toothbrush holder etc.

Thank you for your time and comments.

What have you enjoyed most about this activity? What did you like best?

- I loved how we recycled plastic drink ~~to~~ carbonated bottles to flower vases and trees, which really speaks to people about our ecosystem to conserve flowers and trees.

What new ideas or information have you learned from this activity?

- I learnt how to make a flower vase using materials like; bottles, glue gun, sequence, fishing line, scissors, bottle caps, measuring tape etc. I learnt that instead of throwing away old things we should rather recycle them and make a difference in today's society.

What have you enjoyed least or encountered difficulty with?

- I wish we could have had more supplies like; extra scissors, measuring tapes and glue guns.

What would you like to change if you did this activity again?

- I would like to use bigger bottles to make the flower vase bigger and better, I also would love if more sequence will be used to decorate the vase.

Thank you for your time and comments.

| Title of activity: | <del>Trash</del> Trash to Treasure | Date:       | 16/6/24 |

What have you enjoyed most about this activity? What did you like best?

The trash to treasure enabled ~~the~~ <sup>me</sup> students to learn more about recycling of materials and to be able to upcycle materials into artistic pens, and I also enjoyed the rally made by we students to make people realise what it means to recycle.

What new ideas or information have you learned from this activity?

It really helped me to be mindful of the way I treat plastic bottles and other wasted products. It made me realise that I can upcycle plastic bottles to make trees and flower vase.

What have you enjoyed least or encountered difficulty with?

What I enjoyed least was the group activity whereby classes come together to work and not all the students were able to participate in one way or the other.

What would you like to change if you did this activity again?

I would like to set up a program to change the mentality that people have against recycling. I will like to teach them how to upcycle plastic bottles into different pens like tree and flower vase.

Thank you for your time and comments.
