HOLIDAY ASSIGNMENT

ENGLISH LANGUAGE

NICE

There is one nice little word in English which is really useful, and there are times when this little word is just the right word to use. But often this nice little word needs to be chopped out and replaced, because it is so overused it has lost any real meaning.

Read the following paragraph and underline all the uses of “nice” in it.

My friend Luis is very nice to me. He and I had a nice time last Saturday when she took me to the nice burger bar in that nice shopping mall near us. It’s really nice inside. Everything is nice and clean and it looks so nice and smart. And the food smells nice, too. And the taste! Well, the burgers we had looked nice and tasted nice. Luis paid for all we had, including an extra big nice milk shake. He really is nice.

Rewrite the paragraph by replacing each “nice” you have underlined with a more appropriate (powerful) word.
